

Silicone Machine SLM.5000

For mixing larger quantities of silicone [up to 3 kg], rolling them into large silicone sheets with thicknesses ranging from 0.1 to 35 mm and sizes up to max.650 mm, manual processing of highly viscous HTV silicones.

Product Code	SLM.5000
Dimension	W.128—D.65—H.125 cm
Power Supply	220 Volt 50-60 Hz
Power cord	With CEE plug 3 × 16 A and CEE socket 3 × 16 A
Version	Safety concept according to EN 12301 standard, safety features correspond to category 4
Equipment	Hazard Buttons ,Foot pedal
Electrical Connection	220 Volt 50-60 hz 2.200 Watt
Control Systems	Automatic Digital Systems
Safety Systems	Electrical and Mechanical
Roll Dimension diameter xL	200 x 750 mm
Roll gap	0.1 to 35 mm
Roll speed	0- 20 RPM
Type of planning and Equipment	Silicone processing
Color and Material	RAL 7035 and 7045 steel
